

Oracle® BI Publisher Report Developer Training

Duration: 0,5 days **Language:** German **Location:** upon agreement

In this training you will learn how to create reports with Oracle® BI Publisher. The following contents from our module catalogue are covered in detail in the training. With the help of these module elements, the participants are introduced to efficient report creation and receive practical tips and tricks for their daily work in creating reports.

The training includes the following module elements:

- Creation of data models
- Creation of queries
- Connection of data sources
- Linking of data sets (e.g. Excel data source with DB data source)

Participants

This training is aimed at developers and programmers who need to create EPPM BI Publisher Reports using Oracle® P6. The participants have very good SQL knowledge (DB dependent) and are familiar with database configurations, database connections and have a good understanding of relational databases. Extensive knowledge of the database schemas of the databases to be connected is required.

Coaches

All our trainers are experienced users of the Oracle® BI publisher application and have many years of practical experience in small and large projects with well-known German and international companies from various industries.

Many years of know-how in the areas of implementation, process consulting, project coaching, user consulting, training, interface design, system migrations and practical experience in scheduling achieve maximum added value when using a proadvise consultant / trainer.

Training method

The basics and functions of Oracle® BI Publisher are clearly conveyed through lectures, exercises, and practical examples. Targeted application exercises guarantee a direct practical transfer of what has been learned.

In-house training

You can also use our training offer directly on site in your company and book a customized in-house training. Just send us your request and we will be happy to provide you with an individual offer and support you with the organization.
