

Duration: 1 Day Language: English

Practice-oriented training to be able to handle the daily work with Oracle® BI Publisher Reports.

The following contents from our module catalogue are covered in detail in the training. With the help of these module elements, the participants are introduced to working efficiently with Oracle® BI Publisher Reports.

The training course covers the following topics

- Deployment of reports
- Linking of DB models with layouts
- Configuration User rights
- Creation of connections to data sources
- Configuration Provision Mail FTP etc.
- Format settings (e.g. line breaks)

Participants

This training is aimed at Report Power Users or Report Administrators who need to create and/or modify report designs using Oracle® P6 BI Publisher.

Coaches

All our coaches are experienced professionals in project management and have many years of practical experience in a wide range of industries. They have long-standing know-how within the relevant topics.

Training Method

The basics and functions of Oracle® BI Publisher are clearly conveyed by means of lectures, exercises, and practical examples. Targeted application exercises guarantee a direct practical transfer of what has been learned.

Training Setup

Our courses are available as open training courses (online or on-site). Would you like to book a training course that is tailored specifically to your needs? We are also happy to offer you a customized individual training course. Simply send us your request, and we will prepare your individual offer and support you with the organization.
