

Duration: 1 Day Language: English

In this training you will gain knowledge to run reports with Oracle® BI Publisher. The following contents from our module catalogue are covered in detail in the training. With the help of these module elements, the participants are introduced to efficient report generation and receive practical tips and tricks for their daily work with the reports.

The training course covers the following topics

- Run and view reports
- Export reports to file
- Set parameters
- Send reports by e-mail
- Schedule Reports

## Participants

This training is aimed at Project Managers, Project Staff, Project Controllers, Schedulers and Executives who want to get a solid introduction to Oracle® P6 EPPM BI Publisher Reports. Participants already have knowledge of using standard software and operating systems, such as Windows XP, PDF, and Office applications.

## Coaches

All our coaches are experienced professionals in project management and have many years of practical experience in a wide range of industries. They have long-standing know-how within the relevant topics.

## Training Method

The basics and functions of Oracle® BI Publisher are clearly conveyed by means of lectures, exercises, and practical examples. Focused application exercises guarantee a direct practical transfer of what has been learned.

## Training Setup

Our courses are available as open training courses (online or on-site). Would you like to book a training course that is tailored specifically to your needs? We are also happy to offer you a customized individual training course. Simply send us your request, and we will prepare your individual offer and support you with the organization.
