Primavera P6 EPPM Administration Training

Duration: 2 days **Language:** German/English
Location: upon agreement

After this course you will have a basic knowledge of the administration of Oracle® Primavera P6EPPM, understand the background and be able to deploy the system securely and stably for everyday use. The course teaches the basic principles of a Primavera system such as software management, rights and user administration. The training is based on a variety of practical exercises. The following contents from our module catalogue are covered in detail in the training. Based on these module elements, the participants learn how to work with Oracle® P6.

The training includes the following module elements:

General topics

- My Oracle® Support Portal
- Oracle® - Where can I find solutions to Primavera problems
- Explanation of the contents of an administration manual
- Getting to know the administration possibilities
- System Architecture
- What does the typical user (gladly) do wrong?

Application-related topics

- Administration Web-Frontend
- Administration Professional Client

- Explanation of the P6 objects (Codes, User Defined Fields, Calendar, EPS, WBS, Roles and Resources) and their dependencies
- Import / Export
- Archiving
- Authorisation concept
- Error analysis / plausibility checks
- Layouts

Technical topics

- Backup / Restore of the system
- Error analysis / plausibility checks
- Updates / Patches / Bugfix
- Security
- SQL, auxiliary tools

Participants
The administration training course is aimed at administrators, experienced key users and system administrators who require the knowledge and functions of configuration and administration in Oracle® Primavera P6. The participants already have knowledge in project planning and project management. Master the basics of Oracle® Primavera P6 and are experienced users in handling standard software.

Coaches
All our coaches are experienced professionals in project management and have many years of practical experience in a wide range of industries. They have long-standing know-how within the relevant topics.

Training method
Presence training - the training contents and functions of Oracle® Primavera P6 are clearly conveyed by means of lectures, exercises and practical examples. Targeted application exercises guarantee a direct practical transfer of what has been learned.

Individual in-house training
proadvise individual trainings are goal-oriented and designed according to the needs of the users! Send us your request and we will be happy to make you an individual offer and support you in organising and carrying out the training.
