

Primavera P6 Professional Basic

Duration: 2 days **Language:** German/English

Location: upon agreement

Based on these module elements, the participants learn "Efficient planning and controlling with Oracle® Primavera". They gain insight into multi-project planning, learn target-oriented tracking and reporting and receive practical tips and tricks for their daily work with Oracle® Primavera P6 Professional.

In addition to using the Oracle® Primavera P6 Professional tool, participants learn how to successfully structure, plan and track projects and how to identify obstacles in time.

The training includes the following module elements:

Primavera General

- Primavera Overview
- Application Structure
- User Preferences
- Usability

Project Planning with

- Enterprise Project Structure (EPS)
- Primavera Projects
- Work Breakdown Structure (WBS)
- Activities
- Project Scheduling (Basics)
- Group & Sort
- Filter
- Layouts
- Codes
- UDF
- Calendars
- Role & Resource Assignments
- Baseline (Basics)
- Report (Basics)

Participants

This basic training is aimed at project managers, project staff, project controllers, schedulers and executives who want a solid introduction to Oracle® Primavera P6 EPPM. The participants already have knowledge in project planning and project management.

Coaches

All our coaches are experienced professionals in project management and have many years of practical experience in a wide range of industries. They have long-standing know-how within the relevant topics.

Training method

Presence training - the basics and functions of Oracle® Primavera P6 Professional Client are clearly conveyed using lectures, exercises and practical examples. Targeted application exercises guarantee a direct practical transfer of what has been learned.

Individual in-house training

proadvise individual trainings are goal-oriented and designed according to the needs of the users! Send us your request and we will be happy to make you an individual offer and support you in organising and carrying out the training.
