

Duration: 1,5 Day Language: English

For those who look ahead - Safran Risk is the next-generation probabilistic analysis tool. A software that combines and links both cost and schedule risk analysis. This combination always gives transparency on what risks are threatening your project and how much time and money they are causing.

This course is the basis for learning and mastering Safran Risk. The training teaches the most important techniques for identifying project risks and how to mitigate them.

The training course covers the following topics

Introduction to Safran Risk

- System environment
- Importing P6 and MS Project files
- Dealing with Schedule Warnings
- Estimation of uncertainties
- Critical Path Analysis
- Creation of a Risk Register
- Allocation of risks to the schedule
- Use of Correlations
- Import of a cost model

Monte-Carlo Simulation und Berichte

- Analysis settings
- Distribution Graphs
- Calculation of Contingencies
- Probabilistic Cashflow
- Customization of Reports
- Tornado graphs
- Sensitivity Analysis
- Scatter Plots

Participants

This training is for project managers, project controllers, schedulers and executives who want to get a solid introduction to Safran Risk to use the program as an effective support for their project work. The participants already have knowledge of project planning and project management.

Coaches

All our coaches are experienced professionals in project management and have many years of practical experience in a wide range of industries. They have long-standing know-how within the relevant topics.

Training Method

Lectures, exercises, and practical examples are used to clearly convey the training content and functions of Safran Risk. Targeted application exercises guarantee a direct practical transfer of what has been learned.

Training Setup

Our courses are available as open training courses (online or on-site). Would you like to book a training course that is tailored specifically to your needs? We are also happy to offer you a customized individual training course. Simply send us your request, and we will prepare your individual offer and support you with the organization.
